Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) WEB site (<http://pair.uspto.gov>).

Any questions regarding the Patent Term Extension or Adjustment determination should be directed to the Office of Patent Legal Administration at (571)-272-7702. ### **Reasons for Allowance**

1. In view of the Appeal Brief as filed on 5/10/10, and the appeal brief conference held by the Examiner, Applicant's Argument with respect to currently pending independent claims 13, 20, and 24 have been fully considered, and found to be persuasive.

2. The following is an Examiner's statement of reasons for allowance.

Claims 13-32 are allowed.

Independent claims 13, 20, 24 and corresponding dependent claims 14-19, 21-23, and 25-32 are allowed as having incorporated allowable subject matter(s) comprising a receiver and a method for processing input signals comprising:

(a) a first input for receiving a packetized input data stream comprised of multiplexed and compressed packets, each of said packets having at least header and payload data;

(b) a second input for receiving an analog signal;

(c) a decoder unit partitioning said packetized data stream to generate a video component and an audio component;

(d) a processor processing said analog signal to generate a digitized audio signal and a digitized video signal;

(e) first digital signal processing arrangement decompressing said video component of said packetized data stream, and digital signal processing said decomposed video component and said digitized video signal to generate a video output signal;

(f) second digital signal processing arrangement decompressing said audio component of said packetized data stream, and digital signal processing said decompressed audio component and said digitized audio signal to generate an audio output signal;

(g) a delay selectively delaying the audio output signal for the processing of the digitized audio signal to synchronize an audible audio signal with a displayable video signal; and

(h) a converting arrangement transposing said video output signal to the displayable video signal and said audio output signal to the audible output signal.

The prior art of record fails to anticipate or make obvious the allowable subject matter (emphasis added on underlined claim(s) limitations) as specified in claims 13, 20, and 24.

Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
